CALL FOR PAPERS

CONFERENCES FOR VEHICLE AND ENGINE SPECIALISTS

Heavy-Duty, On- and Off-Highway Engines

CALL FOR PAPERS

17th International MTZ
Conference on Heavy-Duty
Engines
16-11-2022 – 17-11-2022 |
Donaueschingen | Germany or
virtually at your office**MORE INFORMATION** →

Dear Mr. AKSOY,

It is possible to achieve a significant and sustainable reduction in global CO₂ emissions caused by heavy-duty engines. However, this can only be successful if liquid and gaseous energy sources are used on a sustainable basis alongside the necessary process of electrification. What is needed is a systemic approach to energy sources and converters that is open to all technologies. This is the only way to leverage the potential for CO₂ reduction in a targeted manner.

At the **MTZ Conference “Heavy-Duty, On- and Off-Highway Engines”**, engine developers and designers of commercial vehicles, mobile machinery, and marine and stationary equipment will find out about the latest developments. The 17th conference in Donaueschingen will be complemented by a **tour of the MAHLE GmbH plant**.

We cordially invite you to support our conference with a lecture. We would be pleased to welcome you as a speaker at this important event. Please submit a short version of your lecture via the online portal on our events page by **2 May 2022**.

On behalf of the Scientific Advisory Board

Dr. Alexander Heintzel

Editor-in-Chief ATZ | MTZ Group

Heavy-Duty, On- and Off-Highway Engines 2022

The current status of the energy transition in the heavy-duty sector
17th International MTZ Conference on Heavy-Duty Engines | 16-11-2022 – 17-11-2022 | Donaueschingen | Germany or virtually at your office

DRIVE SYSTEMS FOR THE ENERGY TRANSITION

Fuel cell drive systems, battery-electric drive systems, hybrid drive systems, drive systems for alternative fuels

EMISSIONS LEGISLATION AND COMPLIANCE

Reducing CO₂ and pollutant emissions

NEW DIESEL, GAS, AND DUAL-FUEL ENGINES

New components, engines, and development trends

FACTORY TOUR

MAHLE GmbH

SCIENTIFIC DIRECTOR

Prof. Dr. Peter Eilts, TU Braunschweig

LECTURE SUBMISSION VIA THE ONLINE PORTAL UNTIL

2 May 2022

Call for Papers | Heavy-Duty, On- and Off-Highway Engines | 17th International MTZ Conference on Heavy-Duty Engines

R
RICARDO

**The accompanying trade
exhibition**

A trade exhibition of interesting suppliers and service providers rounds off the conference and provides the opportunity to find out about innovations on site.
